

# LUCEANT

**Luceant**

**USA**

**California**

[www.luminescewine.com](http://www.luminescewine.com)

## **Introduction**

Luceant Luminesce is the “convergence of cool Pacific Ocean air, warm coastal foothills and late afternoon western light”.

## **Producer Details**

Country of Origin	USA
Region	California Central Coast
Established	2006

## **More About This Producer**

Winemaker Kevin Law says his goal is to capture the fullest expression of the vineyard by using very little new oak, picking at optimum acids and sugars, and bottling without filtering or fining. With each vintage they strive to produce the highest quality wine by picking at optimum ripeness from carefully selected vineyard rows and blocks.

Luceant sources from many vineyards, finding the best fruit to produce top quality wines. They currently work with Laetitia Vineyard located in the western portion of Arroyo Grande Valley, just four miles from the Pacific Ocean, Presqu'ile Vineyard located in one of the coolest corners of Santa Maria, Lewelling Ranch at the base of the St. Helena foothills of Napa Valley, Thompson Vineyard in the Los Alamos Hills of Santa Barbara County, La Encantada Vineyard located in the western portion of the Santa Rita Hills overlooking the white bluffs of Lompoc, Buttonwood Farm Winery and Vineyard in Solvang, River Bench Vineyard in the Santa Maria Valley, and Talley Vineyard also in Arroyo Grande Valley.

## **Wines In Our Portfolio**
