

KLOOVENBURG VINEYARDS

Merlot

Vintage: 2013

Grapes : 100% Merlot

Origin: Swartland, South Africa

Vineyard: Single vineyard, trellised

Vine age: 16 years

Rootstock: Richter 110

Soil types: Malmesbury schist

Aspect: South facing slopes

Yield: 6.4 ton/ ha

All grapes are handpicked during the early morning hours and then cooled overnight in a temperature - controlled room at 5 °C. All the grapes are then crushed, destemmed and directly transferred to a stainless steel fermenter, taking extra care to remove all the green stems, in order to reduce the green flavour as far as possible. This is followed by a three day cold soak at 9 °C, covered with a CO₂ blanket. Fermentation takes place in closed - top stainless steel fermenters. Half (50%) of the wine ferments spontaneously and the rest is inoculated with D254 and D21 yeast. Extraction is obtained by regular pump overs. After fermentation is completed, the wine is left on the skins for another seven days and then pressed to 20% new Allier French oak barrels. The pressed section is kept separate. Malolactic bacteria are inoculated and malolactic fermentation is completed in the barrel. The wine is then racked from the lees and given a low dose of sulphur. The wine spends a total of 16 months in the barrel before it is blended and bottled.

Colour: Intense ruby colour

Nose: Sweet berry, black fruit flavours, fruitcake with oak spice and cinnamon

Palate: Medium to full bodied , well - structured with soft and silky tannins

Food: Italian dishes, especially tomato-based ones, grilled chicken and Charcuterie, e.g. pâtés, terrines and salamis

ALCOHOL 13.3%

RS 1.9 g/L

pH 3.47

TA 5.6 g/L

TOTAL SO₂ 67 mg/L
